A	NIVERSITY OF MINNESOTA Appendix L UMN Project Name:			
_	struction Stormwater Inspection Checklist UMN Project No.:			
	UMN Project Manager:			
Insp	ection Information: MPCA CSW Permit No.			
	ector: Phone No.: Company:			
Date	e (mm/dd/yy): Time:			
	ection Type: Pre-Con Pre-BMP Final 7 day or MS4 Complaint Storm Ever			
	e site within 1 aerial mile of special or impaired water that can potentially receive discharge from			
	If yes, follow Section 23 and other applicable permit requirements	tile site:	□ 162	
			C	
	ructions: Where any 'No' is selected, describe the required corrective actions and the recommer		e of cor	npletior
OT CO	prrective actions in the comments section. Bold words are as defined in MPCA permit MNR100003	L.		
SWI	PPP Documentation:	Yes	No	NA
1.	Is the SWPPP on-site/available, amended and up-to-date? [6.3, 6.4, 11.12 g, 20.2]			
2.	Are inspection records on-site/available and up-to-date? [11.1]			
3.	Are rainfall logs on-site/available and up-to-date? [11.12 e]			
4.	Are BMP maintenance records on-site/available and up-to-date? [11.12, 20.2]			
Com	ments:			
			ı	
Eros	sion Prevention Requirements: (Section 8.1, 23.1)	Yes	No	NA
1.	Are soils stabilized (including erodible stockpiles) where no construction activity has occurred			
	for 14 days, or 7 days for discharge to special or impaired waters? [8.4, 23.9]			
2.	Has the need to disturb steep slopes been minimized? [8.3]			
3.	If steep slopes are disturbed, are stabilization practices designed for steep slopes used? [8.3]			
4.	All exposed soils are stabilized within 200 feet of, or draining to, a Public Waters edge with DNR			
	"work in water restrictions" during fish spawning time frames within 24 hours? [8.5]			
5.	All ditches/swales are stabilized 200' back from point of discharge or property edge within 24			
	hours, or 7 days for discharge to special or impaired waters? [8.6, 23.9]			<u> </u>
6.	Do pipe outlets have energy dissipation within 24 hours of connection? [8.9]			
_/.	Are areas not to be disturbed marked off (flags, signs, etc.)? [8.2]			
Com	ments:			
		1 1	1 -	1 .
Sed	iment Control Requirements: (Section 9.1)	Yes	No	NA
1.	Perimeter sediment controls installed properly on all down gradient perimeters? [9.2]			
2.	Appropriate BMPs installed protecting catch basins and culvert inlets? (Bails and fabric under			
	grates are prohibited) [9.7]			
3.	Is a 50 foot natural buffer preserved around all surface waters during construction? [9.17]			
	(Or a 100 foot buffer zone for discharges to special or impaired waters? [23.11])			<u> </u>
	If NO, have redundant sediment controls been installed?			
4.	Do all stockpiles have perimeter control in place? [9.9]			
5.	Are stockpiles located outside of buffer zones and stormwater conveyances? [9.10]			
6.	Is there a vehicle tracking BMP installed? [9.11]			
7.	Is there a temporary sediment basin on site, if so, is it built per Section 14 of the permit? [9.13]			

8. Is soil compaction being minimized where not designed for compaction? [9.14]

protected from compaction and sedimentation? [16.5]

10. Is topsoil being preserved unless infeasible? [9.15]

9. If permanent infiltration/filtration systems are being constructed, are they marked and

11. If chemical flocculants are used, is there a plan in place and is the plan being followed? [9.19]

Comments:

	ntenance and Inspections: (Section 11)	Yes	No	NA
1.	Previously stabilized areas maintaining ground cover? [11.4]			
2.	Perimeter controls maintained and functioning properly, sediment removed when ½ full? [11.7]			
3.	Inlet protection devices maintained and adequately protecting inlets? [11.4]			
4.	Temporary sediment basins being maintained and functioning properly? [11.4]			
5.	Vehicle tracking BMPs at site exists in place and maintained and functioning properly? [11.6]			
6.	All tracked sediment being removed within 24 hours? [11.6]			
7.	Have surface waters , ditches, conveyances, and discharge points been inspected? [11.5]			
8.	No discharges seen during this inspection (sediment, turbid water, or otherwise)? [11.12 f]			
	If NO, record the location of all points of discharge. Photograph and describe the discharge (size, co	or, odoi	, foam
	oil sheen, time, etc.). Describe how the discharge will be addressed.			
Com	ments:			
اما	ution Provention. (Castion 13)	Yes	No	NA
	ution Prevention: (Section 12)			
1.	All construction materials that can leach pollutants under cover or protected? [12.2, 12.3]			
2.	Hazardous materials being properly stored? [12.4]			
3.	Appropriate BMPs used to prevent discharges of spilled or leaked chemicals (including fuel)			
	from loading and unloading areas and supplies available to clean up spilled materials? [12.7]]		
4.	All portable toilets are secure and will not tip or be knocked over? [12.6]			
5.	All solid wastes being properly contained and disposed of? [12.5]			
6.	Concrete/other material washout area on site and being used? [12.8, 12.9]			
7.	Concrete washout area marked with a sign? [12.9]			
8.	Concrete/other material wash/washout and mixing areas properly maintained? [12.9]			
9.	If dewatering is occurring on site, is there a dewatering plan in place, are photos being taken,			
	and is the plan being followed? [Section 10, 11.9]			
Com	and is the plan being followed? [Section 10, 11.9] ments:

	nments:	Yes		
Per	mit Termination Conditions – Final Inspection ONLY: (Section 13)	Yes	No	
Per	mit Termination Conditions — Final Inspection ONLY: (Section 13) All construction activity is complete and permanent cover installed in all areas? [13.2]		No 🗆	
Per 1. 2.	mit Termination Conditions – Final Inspection ONLY: (Section 13) All construction activity is complete and permanent cover installed in all areas? [13.2] Is all vegetative cover uniform perennial vegetation with 70% density of final growth? [13.2]		No 🗆	
Per 1. 2. 3.	mit Termination Conditions – Final Inspection ONLY: (Section 13) All construction activity is complete and permanent cover installed in all areas? [13.2] Is all vegetative cover uniform perennial vegetation with 70% density of final growth? [13.2] All permanent stormwater treatment systems clean and operating as designed? [13.3]		No	
Per 1. 2. 3. 4.	mit Termination Conditions – Final Inspection ONLY: (Section 13) All construction activity is complete and permanent cover installed in all areas? [13.2] Is all vegetative cover uniform perennial vegetation with 70% density of final growth? [13.2] All permanent stormwater treatment systems clean and operating as designed? [13.3] All sediment is removed from conveyance systems? [13.4]		No 🗆 🗆 🗆	
Per 1. 2. 3. 4. 5.	mit Termination Conditions – Final Inspection ONLY: (Section 13) All construction activity is complete and permanent cover installed in all areas? [13.2] Is all vegetative cover uniform perennial vegetation with 70% density of final growth? [13.2] All permanent stormwater treatment systems clean and operating as designed? [13.3] All sediment is removed from conveyance systems? [13.4] Approved to remove all temporary erosion prevention and sediment control BMPs? [13.5]		No	
Per 1. 2. 3. 4. 5.	mit Termination Conditions – Final Inspection ONLY: (Section 13) All construction activity is complete and permanent cover installed in all areas? [13.2] Is all vegetative cover uniform perennial vegetation with 70% density of final growth? [13.2] All permanent stormwater treatment systems clean and operating as designed? [13.3] All sediment is removed from conveyance systems? [13.4]		No 🗆 🗆 🗆	
Per 1. 2. 3. 4. 5.	mit Termination Conditions – Final Inspection ONLY: (Section 13) All construction activity is complete and permanent cover installed in all areas? [13.2] Is all vegetative cover uniform perennial vegetation with 70% density of final growth? [13.2] All permanent stormwater treatment systems clean and operating as designed? [13.3] All sediment is removed from conveyance systems? [13.4] Approved to remove all temporary erosion prevention and sediment control BMPs? [13.5]		No 🗆 🗆 🗆	
Per 1. 2. 3. 4. 5.	mit Termination Conditions – Final Inspection ONLY: (Section 13) All construction activity is complete and permanent cover installed in all areas? [13.2] Is all vegetative cover uniform perennial vegetation with 70% density of final growth? [13.2] All permanent stormwater treatment systems clean and operating as designed? [13.3] All sediment is removed from conveyance systems? [13.4] Approved to remove all temporary erosion prevention and sediment control BMPs? [13.5]		No 🗆 🗆 🗆	
Per 1. 2. 3. 4. 5.	mit Termination Conditions – Final Inspection ONLY: (Section 13) All construction activity is complete and permanent cover installed in all areas? [13.2] Is all vegetative cover uniform perennial vegetation with 70% density of final growth? [13.2] All permanent stormwater treatment systems clean and operating as designed? [13.3] All sediment is removed from conveyance systems? [13.4] Approved to remove all temporary erosion prevention and sediment control BMPs? [13.5]		No 🗆 🗆 🗆	
Per 1. 2. 3. 4. 5. Com	mit Termination Conditions — Final Inspection ONLY: (Section 13) All construction activity is complete and permanent cover installed in all areas? [13.2] Is all vegetative cover uniform perennial vegetation with 70% density of final growth? [13.2] All permanent stormwater treatment systems clean and operating as designed? [13.3] All sediment is removed from conveyance systems? [13.4] Approved to remove all temporary erosion prevention and sediment control BMPs? [13.5] Imments:		No 🗆 🗆 🗆	
Per 1. 2. 3. 4. 5. Com	mit Termination Conditions — Final Inspection ONLY: (Section 13) All construction activity is complete and permanent cover installed in all areas? [13.2] Is all vegetative cover uniform perennial vegetation with 70% density of final growth? [13.2] All permanent stormwater treatment systems clean and operating as designed? [13.3] All sediment is removed from conveyance systems? [13.4] Approved to remove all temporary erosion prevention and sediment control BMPs? [13.5] Imments:		No 🗆 🗆 🗆	
Per 1. 2. 3. 4. 5. Com	mit Termination Conditions – Final Inspection ONLY: (Section 13) All construction activity is complete and permanent cover installed in all areas? [13.2] Is all vegetative cover uniform perennial vegetation with 70% density of final growth? [13.2] All permanent stormwater treatment systems clean and operating as designed? [13.3] All sediment is removed from conveyance systems? [13.4] Approved to remove all temporary erosion prevention and sediment control BMPs? [13.5] Imments:		No 🗆 🗆 🗆	
Per 1. 2. 3. 4. 5. Com	mit Termination Conditions – Final Inspection ONLY: (Section 13) All construction activity is complete and permanent cover installed in all areas? [13.2] Is all vegetative cover uniform perennial vegetation with 70% density of final growth? [13.2] All permanent stormwater treatment systems clean and operating as designed? [13.3] All sediment is removed from conveyance systems? [13.4] Approved to remove all temporary erosion prevention and sediment control BMPs? [13.5] Imments:		No 🗆 🗆 🗆	
Per 1. 2. 3. 4. 5. Com	mit Termination Conditions – Final Inspection ONLY: (Section 13) All construction activity is complete and permanent cover installed in all areas? [13.2] Is all vegetative cover uniform perennial vegetation with 70% density of final growth? [13.2] All permanent stormwater treatment systems clean and operating as designed? [13.3] All sediment is removed from conveyance systems? [13.4] Approved to remove all temporary erosion prevention and sediment control BMPs? [13.5] Imments:		No 🗆 🗆 🗆	
Per 1. 2. 3. 4. 5. Com	mit Termination Conditions – Final Inspection ONLY: (Section 13) All construction activity is complete and permanent cover installed in all areas? [13.2] Is all vegetative cover uniform perennial vegetation with 70% density of final growth? [13.2] All permanent stormwater treatment systems clean and operating as designed? [13.3] All sediment is removed from conveyance systems? [13.4] Approved to remove all temporary erosion prevention and sediment control BMPs? [13.5] Imments:		No 🗆 🗆 🗆	
Per 1. 2. 3. 4. 5. Com	mit Termination Conditions – Final Inspection ONLY: (Section 13) All construction activity is complete and permanent cover installed in all areas? [13.2] Is all vegetative cover uniform perennial vegetation with 70% density of final growth? [13.2] All permanent stormwater treatment systems clean and operating as designed? [13.3] All sediment is removed from conveyance systems? [13.4] Approved to remove all temporary erosion prevention and sediment control BMPs? [13.5] Imments:		No 🗆 🗆 🗆	
Per 1. 2. 3. 4. 5. Com	mit Termination Conditions – Final Inspection ONLY: (Section 13) All construction activity is complete and permanent cover installed in all areas? [13.2] Is all vegetative cover uniform perennial vegetation with 70% density of final growth? [13.2] All permanent stormwater treatment systems clean and operating as designed? [13.3] All sediment is removed from conveyance systems? [13.4] Approved to remove all temporary erosion prevention and sediment control BMPs? [13.5] Imments:		No 🗆 🗆 🗆
